Divan De Bruin

Software Developer

<https://divan-de-bruin.vercel.app/>

Experience

2025 - Present

ScriptBit | Cape Town, South Africa

Freelance Software Developer

- Architected and actively maintain a Flask-based insurance agent tracking system, processing lead submissions and delivering performance analytics across multiple campaigns.
- Integrated Airtable as a live data source using delta-based sync logic and duplicate protection, enabling reliable, automated data ingestion.
- Developed pandas-driven data pipelines to merge, clean, and deduplicate datasets, handling dirty data including type mismatches and malformed entries.
- Deployed a DigitalOcean relay server with a static IP for API whitelisting, including systemd service management and UFW firewall configuration.
- Designed admin-only dashboard features including metadata displays, manual sync triggers and CSV fallback import support.

Oct 2023 - May 2024 | Oct 2022 - June 2023 | Feb 2022 - June 2022

Woodfield Country Club, Boca Raton, Florida

Supervisor

- Coordinated team operations and communication in a fast-paced service environment.
- Trained and mentored new team members, reinforcing best practices and fostering a high-performance culture.
- Assisted with scheduling, task delegation, and workflow coordination to maintain service efficiency.

2019 - 2022

AMS Attorneys Inc, Durban, South Africa

Marketing Manager

- Led strategic marketing and public relations initiatives within the conveyancing industry, enhancing brand visibility and strengthening client engagement.
- Coordinated cross-functional efforts to streamline communication, keeping clients and stakeholders informed on key project updates and milestones.
- Applied analytical thinking to assess marketing performance, identify growth opportunities, and implement data-driven improvements.
- Developed and maintained strong client relationships, fostering trust and long-term business partnerships.
